SCIENTIFIC DEBATE

Number, Habits and Destruction of Seals Being Discussed.

REMEDY NOT YET PROPOSED.

Navyyard Investigation Ordered—Japanese Legation Denies a Report—Germany and Hayti Differences—Treasury Statement—Indiana Postmaster Appointments—Other Washington News.

WASHINGTON, Nov. 13.—The third session of the experts on seal life was held at the state department yesterday, all of the representatives of the United States, Canada and Great Britain being in attendance except Sir Wilfrid Laurier, who was visiting the Catholic University. Mr. Adams, first secretary of the British embassy, took his place as the diplomatic representative of the Canadian government. The effort is maintained to keep the proceedings strictly secret at this stage.

During yesterday's conference a series of propositions were presented by American representatives covering the number and habits of the seals, and the extent to which the seal herd had been reduced during the five years in which the Paris award had been in operation. In turn the British-Canadian representatives presented counter propositions, covering their view of the same subjects. The propositions differed considerably, but were not so wide apart as to lead to the belief that they could not be reconciled. Later in the day the British-Canadian submitted some further amendments to the American propositions. It is expected that during today's session the experts will be able to reach a common understanding.

The propositions do not embody any diplomatic features, but are solely scientific, as to the number, habits and destruction of the seals. After the experts have reconciled their propositions, the diplomats will begin to consider the large subject of providing an adequate remedy against seal destruction. It is not expected, however, that this stage will be reached before next week, and the first plan of concluding the meeting this week has been given up.

Investigation Ordered.

WASHINGTON, Nov. 13.—Complaints having been made to the navy department of alleged discrimination against veterans employed in the Mare Island navyyard, Secretary Long has directed Lieutenant J. Knapp to make a thorough investigation and report the facts to him. Lieutenant Knapp is familiar with the question involved, having been a member of the board which laid down the labor regulations and having also just such an investigation at the New York navyyard.

Germany and Hayti Differences.

WASHINGTON, Nov. 13.—It is not possible to confirm here the statement coming from Berlin to the effect that the United States has offered to mediate between Germany and Hayti in differences arising from the arrest of German subjects. It is gathered, however, that while no such proffer has been made, overtures have been made to this government to intervene, but without success.

General Sullivan Retires.

WASHINGTON, Nov. 13.—General Thomas S. Sullivan, commissary general of subsistence, ended his active career in the army today, as he has reached the age of 64 years, the legal age of retirement in the army. General Sullivan has had a long and active career and retires with an honorable record. He is a native of Ohio.

Denied at Japanese Legation.

WASHINGTON, Nov. 13.—The Japanese legation makes official denial of reports that Nicaragua has tendered to Japan the franchise of the Nicaragua canal. It is stated officially that no negotiations of any kind have occurred between Nicaragua and Japan relative to the canal.

President's Proclamation.

WASHINGTON, Nov. 13.—President McKinley yesterday issued a proclamation suspending the collection of discriminating duties upon the Mexican shipping upon satisfactory proof that no discrimination is practiced against American ships in Mexican ports.

Treasury Statement.

WASHINGTON, Nov. 13.—Yesterday's statement of the condition of the treasury shows: Available cash balance, \$203,136,387; gold reserve \$155,338,192.

Indiana Postmasters.

WASHINGTON, Nov. 13.—Indiana postmasters were appointed yesterday as follows: Lockport, Harvey Bloom; Union, R. K. Frederick.

Showing Made by McCoy.

DAYTON, O., Nov. 13.—As a windup to the festive carnival given in the opera-house last night Ed McCoy took on George LaBanche "The Marine" and Beach Ruble of Hamilton. LaBanche lasted but 30 seconds. Ruble was knocked down five times in two minutes when the police interfered. McCoy offered \$50 to any man who stood before him four rounds.

Woodford and Moret Confer.

MADRID, Nov. 13.—United States Minister Woodford had a cordial interview yesterday with Senor Moret, minister of the colonies, and it is believed that he assured Senor Moret that the United States government is satisfied with the measures taken thus far by Marshal Blanco.

Former Ohioan In Trouble.

VICTORIA, B. C., Nov. 13.—W. J. Wilson, said to be an ex-member of the Ohio legislature, was yesterday sentenced to nine months' imprisonment for forging a check for \$10 and stealing a typewriter, which he pawned to redeem the check.

CASE OF DURRANT.

San Francisco Murderer Will Probably Not Be Hanged This Year.

SAN FRANCISCO, Nov. 13.—In view of the fact that the supreme court, which is now in session at Sacramento, will adjourn on Tuesday next until the second Monday in January, it is not considered probable that W. H. T. Durrant, the condemned murderer of Blanche Lamont and Minnie Williams, will execute the crime for which he was sentenced to be hanged in December, 1895, during the current year.

In the ordinary course of events the matter cannot come up for hearing upon the points involved in the order granting the certificates of probable cause, to which Durrant owes his second lease of life, until the middle of January. After the case has been decided, another 90 days at least must intervene before the remitter from the supreme court can reach the trial court and the condemned man be resentence for the second time. This course would not allow the execution to take place before the latter part of February or the beginning of March next. It is possible that the attorney general may apply to the supreme court to advance the case, but this action is unlikely.

QUEER RULING.

Rather Plain Talk of Judge Elmer B. Adams of St. Louis.

ST. LOUIS, Nov. 13.—In the United States circuit court Judge Elmer B. Adams has caused some surprise by sustaining a demurrer to an indictment charging "Professor" L. O. Fay, a medium of this city, with using the mails to defraud. The evidence against Fay was conclusive, but he was discharged by Judge Adams, who held that any man who was so mentally dwarfed as to be swindled by representations such as "Professor" Fay made, should not be a competent prosecuting witness in the criminal prosecution of the man who made them.

SCHOOL FOR CRIME.

Two Pickpockets Allege They Were Taught by a Columbus Woman.

COLUMBUS, O., Nov. 13.—Lizzie Guess, who claims to be a niece of Sarah Guess, who figured as a witness in the Breckinridge-Pollard trial in 1894, has been sentenced to one year in the penitentiary for pocket-picking. The prisoner and Stella Davis, both colored, were prosecuted for picking the pocket of a traveling man.

The testimony of the two girls indicates that there is a school for instruction in crime in this city, for picking pockets and other felonies. They stated that they were instructed in the light fingered art by a white woman. They claim that the \$170 obtained from Becker was turned over to the white woman and that they got precious little of the money. Other arrests and prosecutions will follow.

Marion (Ind.) Elk Lodge Suspended.

HARRISBURG, Pa., Nov. 13.—Grand Exalter Ruler Meade D. Detweiler last evening suspended the Marion (Ind.) lodge of Elks and forwarded the papers to District Deputy Armstrong of that state, authorizing him to secure the charter, paraphernalia and lodge effects. This action was due to the alleged violation of the laws of the order in the method of initiating Robert Fitzsimmons.

Anarchist Paper Confiscated.

BERLIN, Nov. 13.—The police have confiscated the anarchist sheet Neulesen for publishing an article glorifying the anarchists of Haymarket Square, Chicago, the anniversary of whose execution was celebrated here by the anarchists at a meeting which, after several inflammatory speeches, the police dissolved.

Distinguished Painter Dead.

LONDON, Nov. 13.—John Bagnold Burgess, member of the Royal Academy and a distinguished painter, died yesterday in his 68th year. He was born Oct. 21, 1830, at Chelsea, and received his artistic education at the Royal Academy, of which he was elected an associate on June 18, 1877 and made R. A. in 1889.

Broke the American Record.

BROXTON, Mass., Nov. 13.—Surveyors have completed the work of measuring the course over which F. E. German of this city went on a bike last Friday and Saturday in a trial for American road records. They found that German made 321½ miles in the 24 hours—7½ miles better than the American record.

CHATTANOOGA, Nov. 13.—About 400 Pennsylvania veterans arrived here last night to be present at the dedication Monday of the 13 monuments erected by that state on the battlefields of the late war around Chattanooga, including Mission Ridge and Chickamauga.

FOR SPIRITUAL AID

Bishop McCabe Establishes a Methodist Mission in Alaska.

ANNOUNCEMENT A SURPRISE.

The Bishop Asks For Funds to Continue the Ministerial Work in the Gold Fields—Bishop Newman Seeking More Money For the Chinese Mission in California—Work of Missionary Committee.

PHILADELPHIA, Nov. 13.—Bishop Charles C. McCabe caused considerable surprise among the members of the general missionary committee of the Methodist church yesterday when he announced that he had established an Alaskan mission. He said he had borrowed \$400 and sent a missionary into Alaska and that the latter was now ministering to the spiritual wants of the gold diggers. He asked for \$1,600 to enable him to continue the work in Alaska. The request was referred to the special committee, as was also the request of Bishop Newman, who asked that the appropriation for the Chinese mission of California be increased from \$7,000 to \$7,500.

The following appropriations were made: For mission work in New York city among the Chinese, \$1,000, an increase of \$110 over last year; for Japanese and English mission work in Honolulu, \$2,000; for Bohemian work in Baltimore, \$850; for Bohemian work in Cleveland, \$2,500, an increase of \$200 over last year. The Spanish mission in New Mexico was given \$11,000. Spanish schools in New Mexico, \$1,750. Other amounts set aside for Bohemian and Hungarian missions were: Pittsburgh, \$1,116; Rock River, \$3,500; upper Iowa, \$600.

Italian Missions were considered at the opening of the afternoon session. Cincinnati secured \$400 and Louisiana \$1,200. An early adjournment was taken to give several important committees a chance to meet. The session of the central committee was resumed today.

MATTOON, Ill., Nov. 13.—The Meadow Lawn farm, consisting of 250 acres, which has been in litigation for the past five years, has been sold under the hammer to Grand Chief P. M. Arthur, in trust for the benefit of the Brotherhood of Locomotive Engineers for \$17,450. It is the intention of the brotherhood to establish on this farm a home for dependent engineers, their widows and orphans, and for this reason there was no competition in the sale.

Chapman against the Yellow Poplar company of Ironton, for \$100,000 damages, claimed on account of an alleged violation of contract, in the federal court at Abington, Va., judgment was rendered yesterday against the plaintiff. In a former trial Chapman secured a judgment for \$45,000. Chapman took an appeal.

Only a Floater.

LOUISVILLE, Ky., Nov. 13.—Chief Hazen and Secret Service Officer Summers have investigated the counterit on the Chicago Traders' bank, which turned up here Monday. They state that the plates from which the bill was made were destroyed in 1875, and that the bill which bobbed up here is the only one of that series in existence. In other words it is a floater.

Hollars Was Acquitted of Murder.

SOMERSET, Ky., Nov. 13.—"We, the jury, find the defendant not guilty," was the verdict of the jury in the case against James Hollars, charged with the murder of Samuel Shoadoon. Hollars wept and sobbed like a child. There were a few expressions of disapproval by those who heard the announcement of the verdict.

BRADSTREET'S REPORT.

Business Situation as Found by the New York Agency—Dun's Review.

NEW YORK, Nov. 13.—Bradstreet's today says: One of the most significant features of the business situation is found in the continued heavy weekly totals of bank clearings, that for six business days ending Nov. 11 amounting to \$1,347,000,000, an increase of 10 per cent over the preceding week and 13 per cent compared with the second week of November, 1896, when business began to revive sharply in speculative lines.

Railroad gross earnings show smaller gains as comparisons begin to be made with more nearly normal conditions one year ago. Other favorable features are the continued firmness of and activity in wool, iron and steel.

The unfavorable influences in price movements this week are declines for cottons and print cloths, the latter touching the lowest price on record. Wheat, lard and lead are also lower and wire nails have been shaded. There is a long list of staples for which prices are practically unchanged. The more important advances are confined to Indian corn, oats, hops and turpentine.

There is an increase in the number of business failures, the total throughout the United States this week being 273, compared with 223 last week, 258 in the week one year ago, 279 two years ago, 280 three years ago and 370 in the second week of November, 1893. The larger portion of this week's increase over last week is in New England and the southern states.

Dun's Weekly Review.

NEW YORK, Nov. 13.—R. G. Dun & Co.'s weekly review of trade says today: Colder and more stormy weather, so long needed to accelerate distribution of winter goods, has materially helped in some quarters, and the resulting improvement in retail trade is mentioned in nearly every northern dispatch this week, so that orders to fill stocks have been encouraging, and in some branches the multitude of demands for immediate delivery show that the distribution to consumers has already gone much beyond the expectations of dealers.

TRAIN HELD UP.

Famous Blue Cut the Scene of Another Attempted Train Robbery.

KANSAS CITY, Nov. 13.—The St. Louis limited night express on the Northern Pacific railway, which left Kansas City at 10:45 last night, was held up three miles east of Independence, Mo., by five masked men, two of whom were disguised as women, who flagged the train with red lanterns. The robbers expressed nothing of value, but beat the express messenger up severely. The scene of the holdup is within a mile of the famous Blue Cut, in which so many robberies on the Chicago and Alton road have occurred.

More Alaskan Gold.

SEATTLE, Wash., Nov. 13.—The steamer City of Topeka has arrived here from Juneau, Alaska, with \$15,000 in gold, the property of four men, J. M. Hardy, F. Erickson, M. McBeth and J. McLellan, who have been mining in Cook's Inlet. They estimate the total clean up of Cook's Inlet this season at \$200,000.

Strange Animal Caught.

TIFFIN, O., Nov. 13.—Hunters in quest of quail discovered and caught south of the city a short distance an animal foreign to these parts and thought by many to be a peccary. It killed the hunters' dogs before it was finally surrounded and captured.

Shot by Quail Hunters.

MOSCOW, O., Nov. 13.—George Bly received a lead of shot in the chest and face, and will lose his eyesight. His son and George Singer were shooting at quails, and didn't know the elder Bly was in range.

Man Fears and Abhors the Highwayman who at the point of the revolver robs him of his money. The mere thought of the ruffian who robs by violence makes a shudder. There is a deadlier enemy than the highwayman that robs men not only of their money, but of their ability to make it, and of their health and life. And yet in actuality court the advances of this deadly enemy. Its name is consumption. Thousands of bright men and women are passive victims in its clutch. Its daily victims are numbered by thousands.

A sure cure for this dread disease is found in Dr. Pierce's Golden Medical Discovery. It goes directly to the seat of the trouble. It restores vigorous action to the digestive organs, tones up the liver, and makes the appetite good. It makes the assimilation perfect and supplies the blood with the elements that build up healthy tissue. It acts upon the lungs, driving out all impurities and disease germs. It soothes the shattered nerves and they resume their normal function of imparting healthy activity to all the organs of the body. All Druggists sell it. Nothing else is "just as good."

Dr. Pierce, I am one of your most grateful patients," writes Mrs. Annie M. Norman, of Equinunk, Wayne Co., Pa. "I have taken 'Golden Medical Discovery' also 'Favorite Prescription' and 'Pellets' with wonderful results. I am, as many of my friends tell me, like the dead brought to life. The doctors said I had consumption and death was only a matter of time. That was six years ago. I concluded to try your medicine. I continued until I had taken nine bottles of 'Discovery' and several bottles of 'Pellets.' I got well and have done a great deal of hard work since."

What more need be said of a book after the one statement, "68,000 copies sold at \$1.50 each?" That book was Dr. Pierce's Common Sense Medical Adviser. In that many homes it is known as the best medical book ever published in any language. Several chapters relate exclusively to diseases peculiar to women. There is now ready a new and enormous edition that is absolutely FREE. This edition is bound in heavy paper. Send twenty-one one-cent stamps to pay cost of mailing only. If fine French cloth binding is desired, send 10 cents extra (10 cents in all). Address, The World's Dispensary Medical Association, Buffalo, N. Y.

VANDALIA TAX SUIT

Decision Handed Down by Judges of the Superior Court.

FREIGHT WRECK AT FORTVILLE.

Saloonkeeper Indicted For Killing a Drunken Patron—Old Lady Drinks Carbolic Acid by Mistake—Cut His Wife With a Razor—Thought It Was Whisky. Will Be Returned to Ohio.

INDIANAPOLIS, Nov. 13.—Yesterday afternoon in the superior court Judges Carter, McMaster and Harvey handed down a decision in the Vandalia tax case, which will force the case to trial and is considered as another victory for the state in its effort to compel the Vandalia Railroad company to pay its taxes. The suit is for \$3,000,000 and, if collected, goes into the school fund.

BRIDEGROOM ARRESTED.

E. J. Price, Who Eloped With a Fort Wayne Girl, Charged With Forgery.

FORT WAYNE, Ind., Nov. 13.—Edward J. Price cut quite a swath at the Hotel Wayne here for three weeks. Last Thursday he eloped to Chicago with Dr. Marquis Greenwald's daughter Clara and they were married. Before leaving he had a check for \$75 cashed at the hotel. It was drawn on a Pennsylvania bank and sent forward for collection. The bank returned it as a forgery and the matter was placed in Sheriff Melching's hands, who located Price at Toledo, where he was arrested. The sheriff and prisoner returned to this city yesterday. Price's wife is distracted over the matter.

FATAL MISTAKE.

Old Lady Takes Carbolic Acid For a Regular Prescription.

COLUMBUS, Ind., Nov. 13.—Mrs. Margaret Jones took a dose of carbolic acid yesterday mistaking it for a regular prescription, and died almost instantly. She had just finished preparing a meal for her husband when she remarked to her daughter that she would take a dose of medicine. Two bottles stood in the safe; one containing gentian of iron and the other carbolic acid. After swallowing the acid she uttered a scream and dropped dead. Mrs. Jones was 68 years old.

INDICTED FOR MURDER.

Saloonkeeper Who Shot a Drunken Patron During a Row.

CAYUGA, Ind., Nov. 13.—Saloonkeeper George Adams, who shot and killed a miner named Moran last July, has just been indicted for murder by the grand jury. Adams has been placed under \$3,500 bond. Moran, it is alleged, created trouble in the saloon while a celebration was in progress, and Adams claims he shot in self-defense. At a preliminary trial he was released on the ground that the prosecuting attorney was not satisfied and laid the matter before the grand jury.

Will Be Returned to Ohio.

INDIANAPOLIS, Nov. 13.—Governor Mount has honored a requisition for the return to Ohio of Judd Smith and Thomas Flynn, under arrest at Garrett. Several days ago a wholesale burglary was committed at a little town in Henry county. The following day the marshal of Garrett arrested five men, one of whom afterward escaped. James McCoy and Edward Leonard volunteered to return for trial.

Dr. Miles' Nervine Triumphs. Excessive Nervousness from Childhood. La Grippe Brings on Heart Weakness.

REV. B. P. SEARLEY, pastor M. E. church, Buchanan, Ga. writes Dec. 10, 1893: "In childhood I was afflicted with excessive nervousness, which, almost developed into St. Vitus' dance. I partially recovered, but at college it gradually grew worse. Close study aggravated the trouble; any unusual exertion caused trembling all over. In 1890 I had a severe attack of La Grippe which brought on heart weakness. I had been almost constantly under treatment for nervous troubles, and changed climates frequently without avail. Last February I began taking Dr. Miles' Restorative Nervine and Nerve and Liver Pills and since then I have been studying more and working harder than for years and the good effects that have resulted seem to be permanent. Dr. Miles' Remedies are sold by all druggists under a positive guarantee. No bottle of Nervine or money refunded. Book on Nervine and Nervine sent free to all applicants. SATURDAY, NOVEMBER 13, 1897.

The democrats seem to be more concerned about the republican opposition to Senator Hanna in Ohio than he does himself.

At last the popocrats have concluded that the results of the recent elections do not furnish the material to crow over that they anticipated.

Judging from recent developments it seems that there are a few organized gangs of horse thieves in Indiana, that have been doing a thriving business.

JAMES R. SOVEREIGN will be succeeded by Henry A. Hicks as general master workman of the Knights of Labor. The change was made at the meeting of the general assembly, in session at Louisville the past week. Sovereign has been at the head of the Knights of Labor for four years.

SEVERAL exchanges have observed what the REPUBLICAN said about the "open house" day recently observed by the public school teachers of Seymour, and are making favorable comments. The of making special efforts to get the idea parents and teachers into closer sympathy, thus bringing the school into more than a formal relation to the home, is worthy of commendation.

A Proper Stimulant.

One of the brightest and best of our national writers upon the home-very truly declares that "one reason why some men do not get along better in this world is because they have not the proper stimulant in their homes. Their homes lack those little touches of refinement which bring the best out of them. Neatness and taste are possible in the poorest homes. Let a woman make the atmosphere as dainty as her means allow, and she will raise her husband to the same standard. And as she elevates him the effect is felt upon herself, her children, her home and her future. Some men respond more slowly to the touch of a woman's hand displayed in their homes and under their surroundings. The task may seem hopeless to the wife at times. But sooner or later the effect will show itself. There is something in every man which responds to a higher and gentler influence. Let his home be rough and he will be rough. But infuse into the home a softening touch, be it ever so simple, and the man feels it even though he may not directly notice it. He imbibes it unconsciously, and its effect is sure upon him."—Examiner

BEEES IN BATTLE.

The Contest as Viewed by a Spectator at a Safe Distance.

The movements of the combatants are so rapid in battle that it is difficult to follow them through all of their evolutions, but the plan of battle seems to be very simple, says The Chautauquan. Two bees from the hive are sent to kill one intruder, and the latter always tries to force an entrance, even at the risk of its life. Once inside, it makes room for others of its companions to enter and then, gathering up its abdomen in as small a space as possible, it assumes the defensive. Two of the hive bees pounce upon it and collaring it fiercely they seek to find a vulnerable point between the rings of its body to sting it to death. The attacking bee just as determinedly struggles to cover every unprotected spot. If sufficient time can be gained and the attacking swarm is large enough to force an entrance the badly mauled bee that have not been stung to death will suddenly assume the offensive and pursue the tactics of their enemies. The contortions and evolutions of the various fighters are interesting to the observer.

Should the battle go against the attacking body, the balance of the swarm flies away to seek safety, and the dead carcasses of the companions are thrown contemptuously out of the hive. But in the event of an opposite termination of the struggle the poor inhabitants are slaughtered. When their fate has been practically decided, many of them turn traitors to their cause, and in order to save their own lives they join the forces of the attacking party and display great vigor in killing their former companions. But there is honest patriotism even among bees. In every hive there are some who fight to the last and prolong the struggle for hours.

SHOT HIS FATHER.

THE LIFE OF SMITH KIEFER TAKEN BY HIS EIGHTEEN-YEAR-OLD SON.

A report reached here at noon today that Smith Kiefer, of Scipio, was killed early this morning by his son Charley, who is about 18 years of age.

According to this report the father and son had some difference about a trivial matter and sharp words passed between them. The boy stepped into another room, picked up a shotgun and fired at his father. The shot was fatal.

It had been understood that the two who had been living alone for some time did not get along well together, but the real cause of their differences could not be ascertained here today.

Kiefer was a wagon maker at Scipio, was about 55 years of age, and a respected citizen.

The Etna Life Insurance Co.

The old Etna Life Insurance Co. of Hartford, Conn. (chartered in 1820) issues all kinds of life and endowment policies at less rates than any other responsible company in the United States.

It offers no new fangled scheme whereby people can get something for nothing by letting them in on the "ground floor." Neither does it issue any "special contracts," leading persons to believe great profits will accrue under the same, knowing at the same time they will never be realized and it makes no promises that will not be promptly and cheerfully carried out.

The Etna has demonstrated its ability to do what it agrees to do, by the payment of over one hundred million dollars to policy holders and has now accumulated assets safely and profitably invested for the protection of present members of more than forty six million dollars.

Persons desiring policies of insurance guaranteed (no assessments) will find it to their interest to interview Harry M. Miller, agent, Seymour, Ind.

Will Be Independent.

J. R. Walsh, the Chicago capitalist who, with others, recently purchased the Evansville & Richmond, now the Indiana Southern, were in Bedford Thursday inspecting the stone quarries and the Bedford Belt road, in which Mr. Walsh is the largest owner. It is said that Mr. Walsh is very indignant that it should even be intimated that the Pennsylvania company was behind the rebuilding and extension of the Indiana Southern. He says his friends and himself can carry out the program proposed without help from any other railroad corporations.

John R. McLean's Great Newspaper.

Without a single exception, there is no newspaper in the United States that has been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to. A cheaper journal cannot afford.

The very liberal support given the Enquirer by the public, makes it incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as in those of greater magnitude.

FUTURE OF THE B. & O. S. W.

Seems Probable That Oscar G. Murray Will Succeed E. R. Bacon as President.

In higher railroad circles the general understanding is that in the near future Oscar G. Murray will be selected as president of the Baltimore & Ohio Southwestern. Mr. Murray has been in Cincinnati for several days in conference with the B. & O. Southwestern people, and considerable interest is centered in the results of the annual meeting of the stockholders of the Baltimore & Ohio Southwestern on Wednesday next. While there may not be any change in the presidency on that day it is the general impression that when certain financial arrangements are completed the resignation of E. R. Bacon, now president, will be forthcoming. There was a tactful understanding earlier in the year that Mr. Oscar G. Murray would take up the duties of president of the Southwestern in connection with those of receiver of the Baltimore & Ohio. This slate, however, was broken at the last moment.

It was said to be Mr. Bacon's disposition to retire in order to give his attention to other interests, and at that time the affairs of the Southwestern were regarded by some as being in bad shape. Those who were responsible for the property considered it wise that some radical changes should be made in its operation. It was then determined to place Mr. Murray at the head of the property, and it was the belief that his aggressiveness and power for organization could put it in good shape again.

Negotiations had at that time been just completed for the refunding of the 7 per cent mortgage bonds on the road by a 4 per cent bond and financiers expressed the belief that any change in the executive head would be unwise. Mr. Bacon had been conspicuous in carrying on the negotiations, and it was feared that his withdrawal might be misconstrued. While Mr. Murray's aid was desired, the fact that he was one of the Baltimore & Ohio receivers was considered in some quarters as likely to create apprehension and lead to some misunderstanding, should he become associated with the Southwestern as president. It was thought possible that some of the people in Europe interested in the property might confound the two positions. For these reasons no change was made on the surface. There were, however, some radical changes introduced in the management of the Southwestern.

An Object Lesson.

Whatever may be said for or against the department store, it can truthfully be said that it is an object lesson in advertising. These stores have proven beyond a peradventure that judicious, persistent advertising will gain trade, and the smaller dealer can learn a lesson from them in this one direction at least. In order to gain the trade of a community, nowadays, a dealer must keep before the people. If it pays the large store to advertise on the scale which it adopts, it will pay the smaller dealer to advertise in proportion. One of the greatest advantages that the department store has over the smaller dealer is the fact it persistently keeps before the people. The smaller dealer must let the people know what he has and what he will sell for—Western Advertiser.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases. CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble or some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine, you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, let sent free by mail. Mention the REPUBLICAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y. A Fearful Experience

A POSTMASTER LOSES THE USE OF HIS LEGS AND ARMS.

Edwin R. Tripp, of Middlefield Center, Meets with a Hazardous Encounter Which Renders Him Helpless.

From Otsego Republican, Cooperstown, N. Y.

Mr. Edwin R. Tripp, the postmaster at Middlefield Center, N. Y., recently had a dangerous experience which left him in a helpless state. His system was so much shattered that it was feared he might never recover.

In an interview with a reporter of the Republican, regarding this experience, Mr. Tripp stated:

"In March, 1892, I was taken with what I afterward learned was locomotor ataxia, and was unable to walk, and I kept getting worse until I lost the use of my arms. I doctored with two skillful doctors but received no benefit, and also used a galvanic battery but kept getting worse and the doctors told me they could do no more. This was in May and June, 1892. I gave up all hope of ever having the use of my limbs again, and did not expect to live very long. I was unable to dress or undress myself, and could not get around the house unless I was moved in a chair.

"I think it was in June that I read of the case of a man in Saratoga Co., N. Y., who was taken very much as myself. He had taken Dr. Williams' Pink Pills for Pale People which contained, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves, and had been cured by their use.

"I learned that the pills were prepared by the Dr. Williams' Medicine Company, Schenectady, N. Y., and only cost 50 cents a box or six boxes for \$2.50 at any druggist's, and sent for two boxes. I used the pills faithfully and they gave me an appetite. I then sent for four more boxes, and before I had taken all of them my feet and legs which had been cold began to get warm.

"I was a member of the Town Board that summer and had to be carried and put into a wagon to go to the meetings, and in fact was helpless, as my neighbors know. In August I could walk around the house by pushing a chair. I kept getting better and managed to move around more, until at election time that year, I walked with a cane to the polls, a short distance from my home. I continued to take Dr. Williams' Pink Pills for Pale People until I had taken eighteen boxes. I could then get around, and on day walk to the post office and back, a distance of one-quarter of a mile, three times a day, and attend to my duties as postmaster.

"In the spring of 1893 I was elected town clerk, which office I held for three years. I had previously been a justice of the peace for thirty-two years. I am now 70 years of age, and have lived in this town for about forty-six years. For nearly fifty years I worked at the blacksmith's trade. I am able to do work in my garden now, and saw some of my wood. I consider that my restoration to health is due to the use of Dr. Williams' Pink Pills for Pale People.

EDWIN R. TRIPP.

SCIENTIFIC DEBATE

Number, Habits and Destruction of Seals Being Discussed.

REMEDY NOT YET PROPOSED.

Navyyard Investigation Ordered—Japanese Legation Denies a Report—Germany and Hayti Differences—Treasury Statement—Indiana Postmaster Appointments—Other Washington News.

WASHINGTON, Nov. 13.—The third session of the experts on seal life was held at the state department yesterday, all of the representatives of the United States, Canada and Great Britain being in attendance except Sir Wilfrid Laurier, who was visiting the Catholic University. Mr. Adams, first secretary of the British embassy, took his place as the diplomatic representative of the Canadian government. The effort is maintained to keep the proceedings strictly secret at this stage.

During yesterday's conference a series of propositions were presented by American representatives covering the number and habits of the seals, and the extent to which the seal herd had been reduced during the five years in which the Paris award had been in operation. In turn the British-Canadian representatives presented counter propositions, covering their view of the same subjects. The propositions differed considerably, but were not so wide apart as to lead to the belief that they could not be reconciled. Later in the day the British-Canadian submitted some further amendments to the American propositions. It is expected that during today's session the experts will be able to reach a common understanding.

The propositions do not embody any diplomatic features, but are solely scientific, as to the number, habits and destruction of the seals. After the experts have reconciled their propositions, the diplomats will begin to consider the large subject of providing an adequate remedy against seal destruction. It is not expected, however, that this stage will be reached before next week, and the first plan of concluding the meeting this week has been given up.

Investigation Ordered. WASHINGTON, Nov. 13.—Complaints having been made to the navy department of alleged discrimination against veterans employed in the Mare Island navyyard, Secretary Long has directed Lieutenant J. Knapp to make a thorough investigation and report the facts to him. Lieutenant Knapp is familiar with the question involved, having been a member of the board which laid down the labor regulations and having also just such an investigation at the New York navyyard.

Germany and Hayti Differences. WASHINGTON, Nov. 13.—It is not possible to confirm here the statement coming from Berlin to the effect that the United States has offered to mediate between Germany and Hayti in differences arising from the arrest of German subjects. It is gathered, however, that while no such proffer has been made, overtures have been made to this government to intervene, but without success.

General Sullivan Retires. WASHINGTON, Nov. 13.—General Thomas S. Sullivan, commissary general of subsistence, ended his active career in the army today, as he has reached the age of 64 years, the legal age of retirement in the army. General Sullivan has had a long and active career and retires with an honorable record. He is a native of Ohio.

Denied at Japanese Legation. WASHINGTON, Nov. 13.—The Japanese legation makes official denial of reports that Nicaragua has tendered to Japan the franchise of the Nicaragua canal. It is stated officially that no negotiations of any kind have occurred between Nicaragua and Japan relative to the canal.

President's Proclamation. WASHINGTON, Nov. 13.—President McKinley yesterday issued a proclamation suspending the collection of discriminating duties upon the Mexican shipping upon satisfactory proof that no discrimination is practiced against American ships in Mexican ports.

Treasury Statement. WASHINGTON, Nov. 13.—Yesterday's statement of the condition of the treasury shows: Available cash balance, \$203,136,387; gold reserve \$155,338,192.

Indiana Postmasters. WASHINGTON, Nov. 13.—Indiana postmasters were appointed yesterday as follows: Lockport, Harvey Bloom; Union, R. K. Frederick.

Showing Made by McCoy. DAYTON, O., Nov. 13.—As a windup to the fistic carnival given in the opera house last night Kid McCoy took on George LaBanche "The Marine" and Beach Ruble of Hamilton. LaBanche lasted but 20 seconds. Ruble was knocked down five times in two minutes when the police interfered. McCoy offered \$50 to any man who stood before him four rounds.

Woodford and Moret Confer. MADRID, Nov. 13.—United States Minister Woodford had a cordial interview yesterday with Senor Moret, minister of the colonies, and it is believed that he assured Senor Moret that the United States government is satisfied with the measures taken thus far by Marshall Blanco.

Former Ohioan In Trouble. VICTORIA, B. C., Nov. 13.—W. J. Wilson, said to be an ex-member of the Ohio legislature, was yesterday sentenced to nine months' imprisonment for forging a check for \$10 and stealing a typewriter, which he pawned to redeem the check.

CASE OF DURRANT.

San Francisco Murderer Will Probably Not Be Hanged This Year.

SAN FRANCISCO, Nov. 13.—In view of the fact that the supreme court, which is now in session at Sacramento, will adjourn on Tuesday next until the second Monday in January, it is not considered probable that W. H. T. Durrant, the condemned murderer of Blanche Lamont and Minnie Williams, will expire the crime for which he was sentenced to be hanged in December, 1895, during the current year.

In the ordinary course of events the matter cannot come up for hearing upon the points involved in the order granting the certificates of probable cause, to which Durrant owes his second lease of life, until the middle of January. After the case has been decided, another 30 days at least must intervene before the remitter from the supreme court can reach the trial court and the condemned man be resented for the second time. This course would not allow the execution to take place before the latter part of February or the beginning of March next. It is possible that the attorney general may apply to the supreme court to advance the case, but this action is unlikely.

QUEER RULING.

Rather Plain Talk of Judge Elmer B. Adams of St. Louis.

ST. LOUIS, Nov. 13.—In the United States circuit court Judge Elmer B. Adams has caused some surprise by sustaining a demurrer to an indictment charging "Professor" I. C. Fay, a medium of this city, with using the mails to defraud. The evidence against Fay was conclusive, but he was discharged by Judge Adams, who held that any man who was so mentally dwarfed as to be swindled by representations such as "Professor" Fay made, should not be a competent prosecuting witness in the criminal prosecution of the man who made them.

SCHOOL FOR CRIME.

Two Pickpockets Allege They Were Taught by a Columbus Woman.

COLUMBUS, O., Nov. 13.—Lizzie Guess, who claims to be a niece of Sarah Guess, who figured as a witness in the Breckinridge-Pollard trial in 1894, has been sentenced to one year in the penitentiary for pocket-picking. The prisoner and Stella Davis, both colored, were prosecuted for picking the pocket of a traveling man.

The testimony of the two girls indicates that there is a school for instruction in crime in this city, for picking pockets and other felonies. They stated that they were instructed in the light fingered art by a white woman. They claim that the \$170 obtained from Becker was turned over to the white woman and that they got precious little of the money. Other arrests and prosecutions will follow.

Marion (Ind.) Elk Lodge Suspended. HARRISBURG, Pa., Nov. 13.—Grand Exalted Ruler Meade D. Detweiler last evening suspended the Marion (Ind.) lodge of Elks and forwarded the papers to District Deputy Armstrong of that state, authorizing him to secure the charter, paraphernalia and lodge effects. This action was due to the alleged violation of the laws of the order in the method of initiating Robert Fitzsimmons.

Anarchist Paper Confiscated. BERLIN, Nov. 13.—The police have confiscated the anarchist sheet Neuenleben for publishing an article glorifying the anarchists of Haymarket Square, Chicago, the anniversary of whose execution was celebrated here by the anarchists at a meeting which, after several inflammatory speeches, the police dissolved.

Distinguished Painter Dead. LONDON, Nov. 13.—John Bagnold Burgess, member of the Royal Academy and a distinguished painter, died yesterday in his 68th year. He was born Oct. 21, 1830, at Chelsea, and received his artistic education at the Royal Academy, of which he was elected an associate on June 18, 1877 and made R. A. in 1889.

Broke the American Record. BROOKTON, Mass., Nov. 13.—Surveyors have completed the work of measuring the course over which F. E. German of this city went on a bike last Friday and Saturday in a trial for American road records. They found that German made 321½ miles in the 24 hours—7½ miles better than the American record.

Battlefield Monuments. CHATTANOOGA, Nov. 13.—About 400 Pennsylvania veterans arrived here last night to be present at the dedication Monday of the 13 monuments erected by that state on the battlefields of the late war around Chattanooga, including Mission Ridge and Chickamauga.

BROADSTREET'S REPORT.

Business Situation as Found by the New York Agency—Dun's Review.

NEW YORK, Nov. 13.—Broadstreets today says:

One of the most significant features of the business situation is found in the continued heavy weekly totals of bank clearings, that for six business days ending Nov. 11 amounting to \$1,347,000,000, an increase of 10 per cent over the preceding week and 13 per cent compared with the second week of November, 1896, when business began to revive sharply in speculative lines.

Railroad gross earnings show smaller gains as comparisons begin to be made with more nearly normal conditions one year ago.

Other favorable features are the continued firmness of and activity in wool, iron and steel.

The unfavorable influences in price movements this week are declines for cottons and print cloths, the latter touching the lowest price on record. Wheat, lard and lead are also lower and wire nails have been shaded. There is a long list of staples for which prices are practically unchanged. The more important advances are confined to Indian corn, oats, hops and turpentine.

There is an increase in the number of business failures, the total throughout the United States this week being 273, compared with 223 last week, 258 in the week one year ago, 279 two years ago, 280 three years ago, and 370 in the second week of November, 1893. The larger portion of this week's increase over last week is in New England and the southern states.

SHOT HIS FATHER.

THE LIFE OF SMITH KEIFER TAKEN BY HIS EIGHTEEN-YEAR-OLD SON.

A report reached here at noon today that Smith Keifer, of Scipio, was killed early this morning by his son Charley, who is about 18 years of age.

According to this report the father and son had some difference about a trivial matter and sharp words passed between them. The boy stepped into another room, picked up a shotgun and fired at his father. The shot was fatal.

It had been understood that the two who had been living alone for some time did not get along well together, but the real cause of their differences could not be ascertained here today.

Keifer was a wagon maker at Scipio, was about 55 years of age, and a respected citizen.

The Etna Life Insurance Co.

The old Etna Life Insurance Co. of Hartford, Conn. (chartered in 1820) issues all kinds of life and endowment policies at less rates than any other responsible company in the United States. It offers no new fangled scheme whereby people can get something for nothing by letting them in on the "ground floor." Neither does it issue any "special contracts," leading persons to believe great profits will accrue under the same, knowing at the same time they will never be realized and it makes no promises that will not be promptly and cheerfully carried out.

The Etna has demonstrated its ability to do what it agrees to do, by the payment of over one hundred million dollars to policy holders and has now accumulated assets safely and profitably invested for the protection of present members of more than forty six million dollars.

Persons desiring policies of insurance guaranteed (no assessments) will find it to their interest to interview Harry M. Miller, agent, Seymour, Ind.

Will Be Independent.

J. R. Walsh, the Chicago capitalist who, with others, recently purchased the Evansville & Richmond, now the Indiana Southern, were in Bedford Thursday inspecting the stone quarries and the Bedford Belt road, in which Mr. Walsh is the largest owner. It is said that Mr. Walsh is very indignant that it should even be intimated that the Pennsylvania company was behind the rebuilding and extension of the Indiana Southern. He says his friends and himself can carry out the program proposed without help from any other railroad corporations.

SCIENTIFIC DEBATE

Number, Habits and Destruction of Seals Being Discussed.

REMEDY NOT YET PROPOSED.

Navyyard Investigation Ordered—Japanese Legation Denies a Report—Germany and Hayti Differences—Treasury Statement—Indiana Postmaster Appointments—Other Washington News.

WASHINGTON, Nov. 13.—The third session of the experts on seal life was held at the state department yesterday, all of the representatives of the United States, Canada and Great Britain being in attendance except Sir Wilfrid Laurier, who was visiting the Catholic University. Mr. Adams, first secretary of the British embassy, took his place as the diplomatic representative of the Canadian government. The effort is maintained to keep the proceedings strictly secret at this stage.

During yesterday's conference a series of propositions were presented by American representatives covering the number and habits of the seals, and the extent to which the seal herd had been reduced during the five years in which the Paris award had been in operation. In turn the British-Canadian representatives presented counter propositions, covering their view of the same subjects. The propositions differed considerably, but were not so wide apart as to lead to the belief that they could not be reconciled. Later in the day the British-Canadians submitted some further amendments to the American propositions. It is expected that during today's session the experts will be able to reach a common understanding.

The propositions do not embody any diplomatic features, but are solely scientific, as to the number, habits and destruction of the seals. After the experts have reconciled their propositions, the diplomats will begin to consider the large subject of providing an adequate remedy against seal destruction. It is not expected, however, that this stage will be reached before next week, and the first plan of concluding the meeting this week has been given up.

Investigation Ordered. WASHINGTON, Nov. 13.—Complaints having been made to the navy department of alleged discrimination against veterans employed in the Mare Island navyyard, Secretary Long has directed Lieutenant J. Knapp to make a thorough investigation and report the facts to him. Lieutenant Knapp is familiar with the question involved, having been a member of the board which laid down the labor regulations and having also just conducted an investigation at the New York navyyard.

Germany and Hayti Differences. WASHINGTON, Nov. 13.—It is not possible to confirm here the statement coming from Berlin to the effect that the United States has offered to mediate between Germany and Hayti in differences arising from the arrest of German subjects. It is gathered, however, that while no such proffer has been made, overtures have been made to this government to intervene, but without success.

General Sullivan Retires. WASHINGTON, Nov. 13.—General Thomas S. Sullivan, commissary general of subsistence, ended his active career in the army today, as he has reached the age of 64 years, the legal age of retirement in the army. General Sullivan has had a long and active career and retires with an honorable record. He is a native of Ohio.

Denied at Japanese Legation. WASHINGTON, Nov. 13.—The Japanese legation makes official denial of reports that Nicaragua has tendered to Japan the franchise of the Nicaragua canal. It is stated officially that no negotiations of any kind have occurred between Nicaragua and Japan relative to the canal.

President's Proclamation. WASHINGTON, Nov. 13.—President McKinley yesterday issued a proclamation suspending the collection of discriminating duties upon the Mexican shipping upon satisfactory proof that no discrimination is practiced against American ships in Mexican ports.

Treasury Statement. WASHINGTON, Nov. 13.—Yesterday's statement of the condition of the treasury shows: Available cash balance, \$203,136,387; gold reserve \$155,338,192.

Adams Postmasters. WASHINGTON, Nov. 13.—Indiana postmasters appointed yesterday as follows: Lockport, Harvey Bloom; Union, R. K. Frederick.

Showing Made by McCoy. DAYTON, O., Nov. 13.—As a windup to the little carnival given in the opera-house last night Kid McCoy took on George LaBanche "The Marine" and Beach Ruble of Hamilton. LaBanche lasted but 20 seconds. Ruble was knocked down five times in two minutes when the police interfered. McCoy offered \$50 to any man who stood before him four rounds.

Woodford and Moret Confer. MADRID, Nov. 13.—United States Minister Woodford had a cordial interview yesterday with Senator Moret, minister of the colonies, and it is believed that he assured Senator Moret that the United States government is satisfied with the measures taken thus far by Marshal Blanco.

Former Ohioan in Trouble. VICTORIA, B. C., Nov. 13.—W. J. Wilson, said to be an ex-member of the Ohio legislature, was yesterday sentenced to nine months' imprisonment for forging a check for \$10 and stealing a typewriter, which he pawned to redeem the check.

CASE OF DURRANT.

San Francisco Murderer Will Probably Not Be Hanged This Year.

SAN FRANCISCO, Nov. 13.—In view of the fact that the supreme court, which is now in session at Sacramento, will adjourn on Tuesday next until the second Monday in January, it is not considered probable that W. H. T. Durrant, the condemned murderer of Blanche Lamont and Minnie Williams, will expire the crime for which he was sentenced to be hanged in December, 1895, during the current year.

In the ordinary course of events the matter cannot come up for hearing upon the points involved in the order granting the certificates of probable cause, to which Durrant owes his second lease of life, until the middle of January. After the case has been decided, another 30 days at least must intervene before the remittor from the supreme court can reach the trial court and the condemned man be rescheduled for the second time. This course would not allow the execution to take place before the latter part of February or the beginning of March next. It is possible that the attorney general may apply to the supreme court to advance the case, but this action is unlikely.

QUEER RULING.

Rather Plain Talk of Judge Elmer B. Adams of St. Louis.

ST. LOUIS, Nov. 13.—In the United States circuit court Judge Elmer B. Adams has caused some surprise by sustaining a demurrer to an indictment charging "Professor" I. C. Fay, a medium of this city, with using the mails to defraud. The evidence against Fay was conclusive, but he was discharged by Judge Adams, who held that any man who was so mentally dwarfed as to be swindled by representations such as "Professor" Fay made, should not be a competent prosecuting witness in the criminal prosecution of the man who made them.

SCHOOL FOR CRIME.

Two Pickpockets Allege They Were Taught by a Columbus Woman.

COLUMBUS, O., Nov. 13.—Lizzie Guess, who claims to be a niece of Sarah Guess, who figured as a witness in the Breckinridge-Pollard trial in 1894, has been sentenced to one year in the penitentiary for pocket-picking. The prisoner and Stella Davis, both colored, were prosecuted for picking the pocket of a traveling man.

The testimony of the two girls indicates that there is a school for instruction in crime in this city, for picking pockets and other felonies.

They stated that they were instructed in the light fingered art by a white woman. They claim that the \$170 obtained from Becker was turned over to the white woman and that they got precious little of the money. Other arrests and prosecutions will follow.

Marion (Ind.) Elk Lodge Suspended.

HARRISBURG, Pa., Nov. 13.—Grand Exalter Ruler Mende D. Detwiler last evening suspended the Marion (Ind.) lodge of Elks and forwarded the papers to District Deputy Armstrong of that state, authorizing him to secure the charter, paraphernalia and lodge effects. This action was due to the alleged violation of the laws of the order in the method of initiating Robert Fitzsimmons.

Anarchist Paper Confiscated.

BERLIN, Nov. 13.—The police have confiscated the anarchist sheet Neues Leben for publishing an article glorifying the anarchists of Haymarket Square, Chicago, the anniversary of whose execution was celebrated here by the anarchists at a meeting which, after several inflammatory speeches, the police dissolved.

Distinguished Painter Dead.

LONDON, Nov. 13.—John Bagnold Burgess, member of the Royal Academy and a distinguished painter, died yesterday in his 68th year. He was born Oct. 21, 1830, at Chelsea, and received his artistic education at the Royal Academy, of which he was elected an associate on June 18, 1877 and made R. A. in 1889.

Broke the American Record.

BROCKTON, Mass., Nov. 13.—Surveyors have completed the work of measuring the course over which F. E. Gorman of this city went on a bike last Friday and Saturday in a trial for American road records. They found that Gorman made 321 1/2 miles in the 24 hours—7 1/2 miles better than the American record.

Battlefield Monuments.

CHATTANOOGA, Nov. 13.—About 400 Pennsylvania veterans arrived here last night to be present at the dedication Monday of the 13 monuments erected by that state on the battlefields of the late war around Chattanooga, including Mission Ridge and Chickamauga.

FOR SPIRITUAL AID

Bishop McCabe Establishes a Methodist Mission in Alaska.

ANNOUNCEMENT A SURPRISE.

The Bishop Asks For Funds to Continue the Ministerial Work in the Gold Fields—Bishop Newman Seeking More Money For the Chinese Mission in California—Work of Missionary Committee.

PHILADELPHIA, Nov. 13.—Bishop Charles C. McCabe caused considerable surprise among the members of the general missionary committee of the Methodist church yesterday when he announced that he had established an Alaskan mission. He said he had borrowed \$400 and sent a missionary into Alaska and that the latter was now ministering to the spiritual wants of the gold diggers. He asked for \$1,000 to enable him to continue the work in Alaska. The request was referred to the special committee, as was also the request of Bishop Newman, who asked that the appropriation for the Chinese mission of California be increased from \$7,000 to \$7,500.

The following appropriations were made: For mission work in New York city among the Chinese, \$1,000, an increase of \$110 over last year; for Japanese and English mission work in Honolulu, \$2,000; for Bohemian work in Baltimore, \$850; for Bohemian work in Cleveland, \$2,500, an increase of \$200 over last year. The Spanish mission in New Mexico was given \$11,000. Spanish schools in New Mexico, \$1,750. Other amounts set aside for Bohemian and Hungarian missions were: Pittsburgh, \$1,116; Rock River, \$3,500; upper Iowa, \$600.

Italian Missions were considered at the opening of the afternoon session. Cincinnati secured \$400 and Louisiana \$1,200. An early adjournment was taken to give several important committees a chance to meet. The session of the central committee was resumed today.

NEWS FROM CUBA.

Spanish Troops and Insurgents Battle. Prisoners Liberated.

HAVANA, Nov. 13.—The Spanish cavalry came upon the camp of the insurgents, under General Alejandro Rodriguez, on the Regalada farm, Province of Havana, and in the engagement killed 20 insurgents, capturing a quantity of side arms, together with the accoutrements of General Rodriguez, a quantity of baggage and letters.

Socorro Perez, under sentence of imprisonment for life, has been liberated. His release has produced a bad impression and general indignation is expressed.

John Koval and Charles Peterson, British subjects, who have been detained on charges of complicity in the insurance, were liberated yesterday and placed in the care of the British consul.

Considerable excitement has been caused by the report that the Dauntless has succeeded in landing two filibustering expeditions.

HOME FOR ENGINEERS.

Locomotive Brotherhood Buys Property For a Worthy Purpose.

MATTOON, Ill., Nov. 13.—The Meadow Lawn farm, consisting of 250 acres, which has been in litigation for the past five years, has been sold under the hammer to Grand Chief P. M. Arthur, in trust for the benefit of the Brotherhood of Locomotive Engineers for \$17,450. It is the intention of the brotherhood to establish on this farm a home for dependent engineers, their widows and orphans, and for this reason there was no competition in the sale.

Judgment Against Plaintiff.

CHATTANOOGA, Nov. 13.—In the suit of S. F. Chapman against the Yellow Poplar company of Ironton, for \$100,000 damages, claimed on account of an alleged violation of contract, in the federal court at Abington, Va., judgment was rendered yesterday against the plaintiff. In a former trial Chapman secured a judgment for \$45,000. Chapman took an appeal.

Only a Floater.

LOUISVILLE, Ky., Nov. 13.—Chief Hazen and Secret Service Officer Summers have investigated the counterfeiter on the Chicago Traders' bank, which turned up here Monday. They state that the plates from which the bill was made were destroyed in 1875, and that the bill which bobbed up here is the only one of that series in existence. In other words it is a floater.

BRADSTREET'S REPORT.

Business Situation as Found by the New York Agency—Dun's Review.

NEW YORK, Nov. 13.—Bradstreet's today says: One of the most significant features of the business situation is found in the continued heavy weekly totals of bank clearings, that for six business days ending Nov. 11 amounting to \$1,347,000,000, an increase of 10 per cent over the preceding week and 13 per cent compared with the second week of November, 1896, when business began to revive sharply in speculative lines.

Railroad gross earnings show smaller gains as comparisons begin to be made with more nearly normal conditions one year ago.

Other favorable features are the continued firmness of and activity in wool, iron and steel. The unfavorable influences in price movements this week are declines for cottons and print cloths, the latter touching the lowest price on record. Wheat, lard and lead are also lower and wire nails have been shaded. There is a long list of staples for which prices are practically unchanged. The more important advances are confined to Indian corn, oats, hops and turpentine.

There is an increase in the number of business failures, the total throughout the United States this week being 273, compared with 233 last week, 258 in the week one year ago, 279 two years ago, 280 three years ago and 370 in the second week of November, 1893. The larger portion of this week's increase over last week is in New England and the southern states.

Dun's Weekly Review.

NEW YORK, Nov. 13.—R. G. Dun & Co.'s weekly review of trade says today: Colder and more stormy weather, so long needed to accelerate distribution of winter goods, has materially helped in some quarters, and the resulting improvement in retail trade is mentioned in nearly every northern dispatch this week, so that orders to fill stocks have been encouraging, and in some branches the multitude of demands for immediate delivery show that the distribution to consumers has already gone much beyond the expectations of dealers.

Man fears and abhors the highwayman who at the point of the revolver robs him of his money. The mere thought of the ruffian who robs by violence makes a man's flesh creep.

There is a deadlier enemy than the highwayman who robs by violence. A man fears and abhors the highwayman who at the point of the revolver robs him of his money. The mere thought of the ruffian who robs by violence makes a man's flesh creep.

A sure cure for this dread disease is found in Dr. Pierce's Golden Medical Discovery. It goes directly to the seat of the trouble. It restores vigorous action to the digestive organs, tones up the liver, and makes the appetite good. It makes the assimilation perfect and supplies the blood with the elements that build up healthy tissue. It acts upon the lungs driving out all impurities and disease germs. It soothes the shattered nerves and they resume their normal function of imparting healthy activity to all the organs of the body. All Druggists sell it. Nothing else is "just as good."

"Dr. Pierce, I am one of your most grateful patients," writes Mrs. Annie M. Norman, of Equinunk, Wayne Co., Pa. "I have taken 'Golden Medical Discovery' also 'Favorite Prescription' and 'Pellets' with wonderful results. I am, as many of my friends tell me, like the dead brought to life. The doctors said I had consumption and death was only a matter of time. That was six years ago. I concluded to try your medicine. I continued until I had taken nine bottles of 'Discovery' and several bottles of 'Pellets.' I got well and have done a great deal of hard work since."

What more need be said of a book after the one statement: "680,000 copies sold at \$1.50 each?" That book was Dr. Pierce's Common Sense Medical Adviser. In that many homes it is known as the best medical book ever published in any language. Several chapters relate exclusively to diseases peculiar to women. There is now ready an enormous edition that is absolutely free. This edition is bound in heavy paper. Send twenty-one one-cent stamps to pay cost of mailing only. If fine French cloth binding is desired, send 10 cents extra (31 cents in all). Address, World's Dispensary Medical Association, Buffalo, N. Y.

Dr. Miles' Nerve Triumphs.

Excessive Nervousness from Childhood.
La Grippe Brings on Heart Weakness.

REV. B. P. SEAREY, pastor M. E. church, Buchanan, Ga., writes Dec. 10, 1933: "In childhood I was afflicted with excessive nervousness, which, almost developed into St. Vitus dance. I gradually grew worse. Close study aggravated the trouble; any unusual exertion caused trembling all over. In 1890 I had a severe attack of La Grippe which brought on heart weakness. I had been almost constantly under treatment for nervous troubles, and changed climates frequently without avail. Last February I began taking Dr. Miles' Restorative Nerve and Nerve and Liver Pills and since then I have been studying more and working harder than for years and the good effects that have resulted seem to be permanent." "Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first, bottle contents or money refunded. Book on Nerve and Nervous sent free to all applicants. DR. SHOT HIS FATHER.

THE LIFE OF SMITH KEIFER TAKEN BY HIS EIGHTEEN-YEAR-OLD SON.

A report reached here at noon today that Smith Keifer, of Scipio, was killed early this morning by his son Charley, who is about 18 years of age.

According to this report the father and son had some difference about a trivial matter and sharp words passed between them. The boy stepped into another room, picked up a shotgun and fired at his father. The shot was fatal. It had been understood that the two who had been living alone for some time did not get along well together, but the real cause of their differences could not be ascertained here today.

Keifer was a wagon maker at Scipio, was about 55 years of age, and a respected citizen.

The Aetna Life Insurance Co.

The old Aetna Life Insurance Co. of Hartford, Conn., (chartered in 1820) issues all kinds of life and endowment policies at less rates than any other responsible company in the United States. It offers no new fangled scheme whereby people can get something for nothing by letting them in on the "ground floor." Neither does it issue any "special contracts," leading persons to believe great profits will accrue under the same, knowing at the same time they will never be realized and it makes no promises that will not be promptly and cheerfully carried out.

The Aetna has demonstrated its ability to do what it agrees to do, by the payment of over one hundred million dollars to policy holders and has now accumulated assets safely and profitably invested for the protection of present members of more than forty six million dollars.

Persons desiring policies of insurance guaranteed (no assessments) will find it to their interest to interview Harry M. Miller, agent, Seymour, Ind.

Will Be Independent.

J. R. Walsh, the Chicago capitalist who, with others, recently purchased the Evansville & Richmond, now the Indiana Southern, were in Bedford Thursday inspecting the stone quarries and the Bedford Belt road, in which Mr. Walsh is the largest owner. It is said that Mr. Walsh is very indignant that it should even be intimated that the Evansville company was behind the rebuilding and extension of the Indiana Southern. He says his friends and himself can carry out the program proposed without help from any other railroad corporations.
